

Conflict Minerals Declaration

AIRWORK PNEUMATIC EQUIPMENT S.R.L.
Via Dei Mille,1 20811 Cesano Maderno (MI), Italy

inform under its own responsibility that:

On 21 July 2010 the United States have approved
the "Dodd-Frank Wall-Street Reform and Consumer Protection Act".

It concerns a Law that, among the different points, regulates and prevents the trade of
"conflict minerals" (tin, tantalum, tungsten and gold), whose proceeds finance the armed
conflicts in the Democratic Republic of Congo and in the neighboring countries.

In this regard Airwork Pneumatic S.r.l declares that the diecast brass and aluminium used
for the manufacturing of its products may contain tin but only as impurity deriving from
scraps, not intentionally added in the production process.

Our raw materials don't contain the other materials (tantalum, tungsten and gold).

Therefore, we can guarantee the compliance with the "Dodd-Frank Act"

Carate Brianza, March 2020
